EXPONENTIAL<sup>T</sup>

# It Just Makes Sense to...

## Leverage Best-Practices via Info-Tech Research Group and McLean & Co.

40,000 +  
members  
sharing best  
practices you  
can leverage

Millions spent  
developing tools  
and templates  
annually

Leverage direct  
access to over 200  
analysts as an  
extension of your  
team

Use our massive  
database of  
benchmarks  
and vendor  
assessments

Get up to  
speed in a  
fraction of  
the time

Avoid starting from scratch

---

# Overview

Insights

Frameworks  
to Leverage

Applying to  
Real Life

Takeaways

# Common attributes of Small and Emerging Enterprises

## Organizations in this space...

- Less revenue, small tech budget
- Family-owned, start-up, regional/community-based, etc.
- Local government, manufacturing, credit unions, associations, local health care, biotech, etc.

## Teams...

- Fewer resources
- Range of IT experience
- Lots of different areas of focus and responsibility
- Limited succession plan
- Leverage service providers

## Leaders...

- May/may not be exec leadership
- Limited role in strategic planning
- Newer leaders and/or newer to this industry
- Struggles to balance operational vs. strategic focus

# Diagnostic Summary

## IT Management & Governance Diagnostic Program Benchmarks

Core Processes are color coded based on the classification with the highest percentage make-up for the peer group selected. A peer group with fewer than 3 organizations will not be displayed.

# 5 common challenges departments face in Small and Emerging Enterprises

1 Resources have multiple responsibilities

2 Breadth versus depth dilemma

3 Talent battle

4 Big target for cyber-attacks

5 IT leaders do not have a seat at the table

# Tailored solutions for your unique space

---

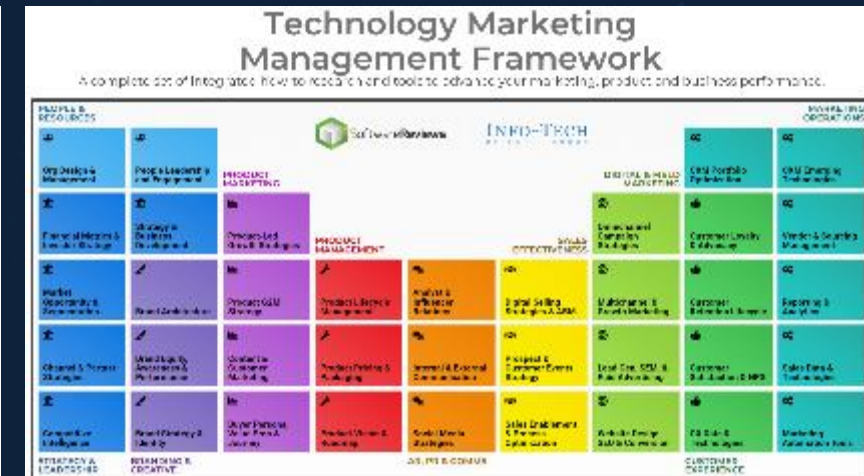

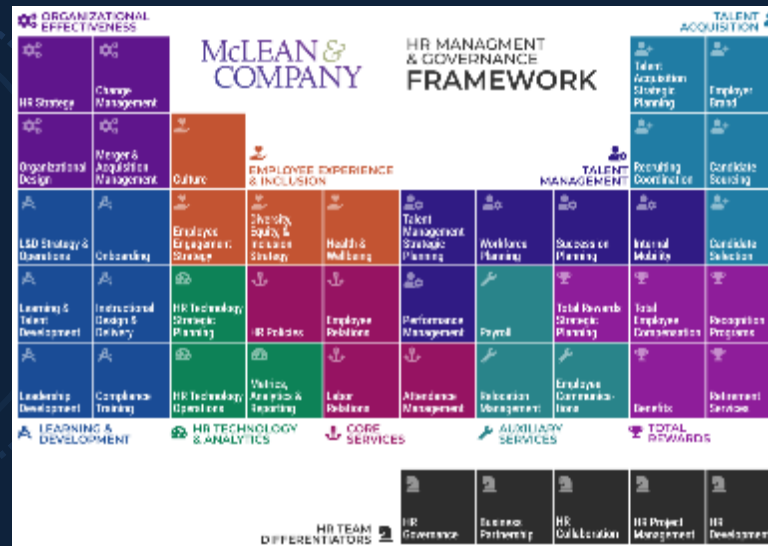

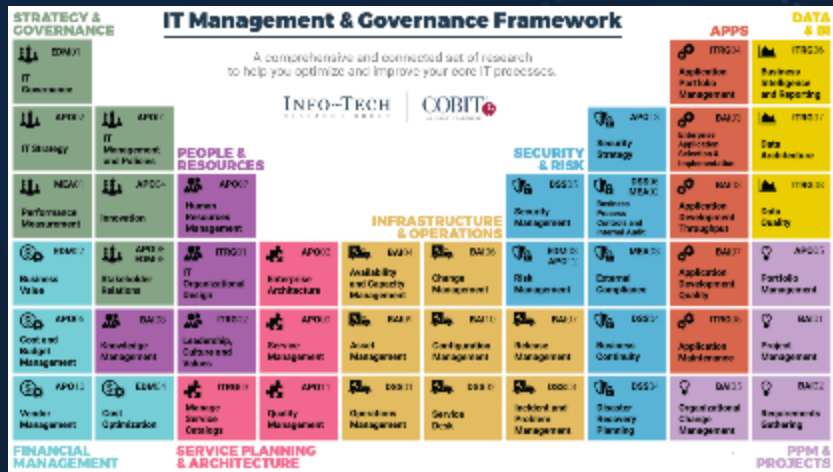

- ✓ Applicable to current maturity and resources
- ✓ Right-sized targets and approaches
- ✓ Actionable best practices
- ✓ Tools, templates, processes, and procedures act as accelerators
- ✓ Value-focused partnerships

**Right-sized approaches** meet organizations where they are and provide **actionable** and **critical** resources.

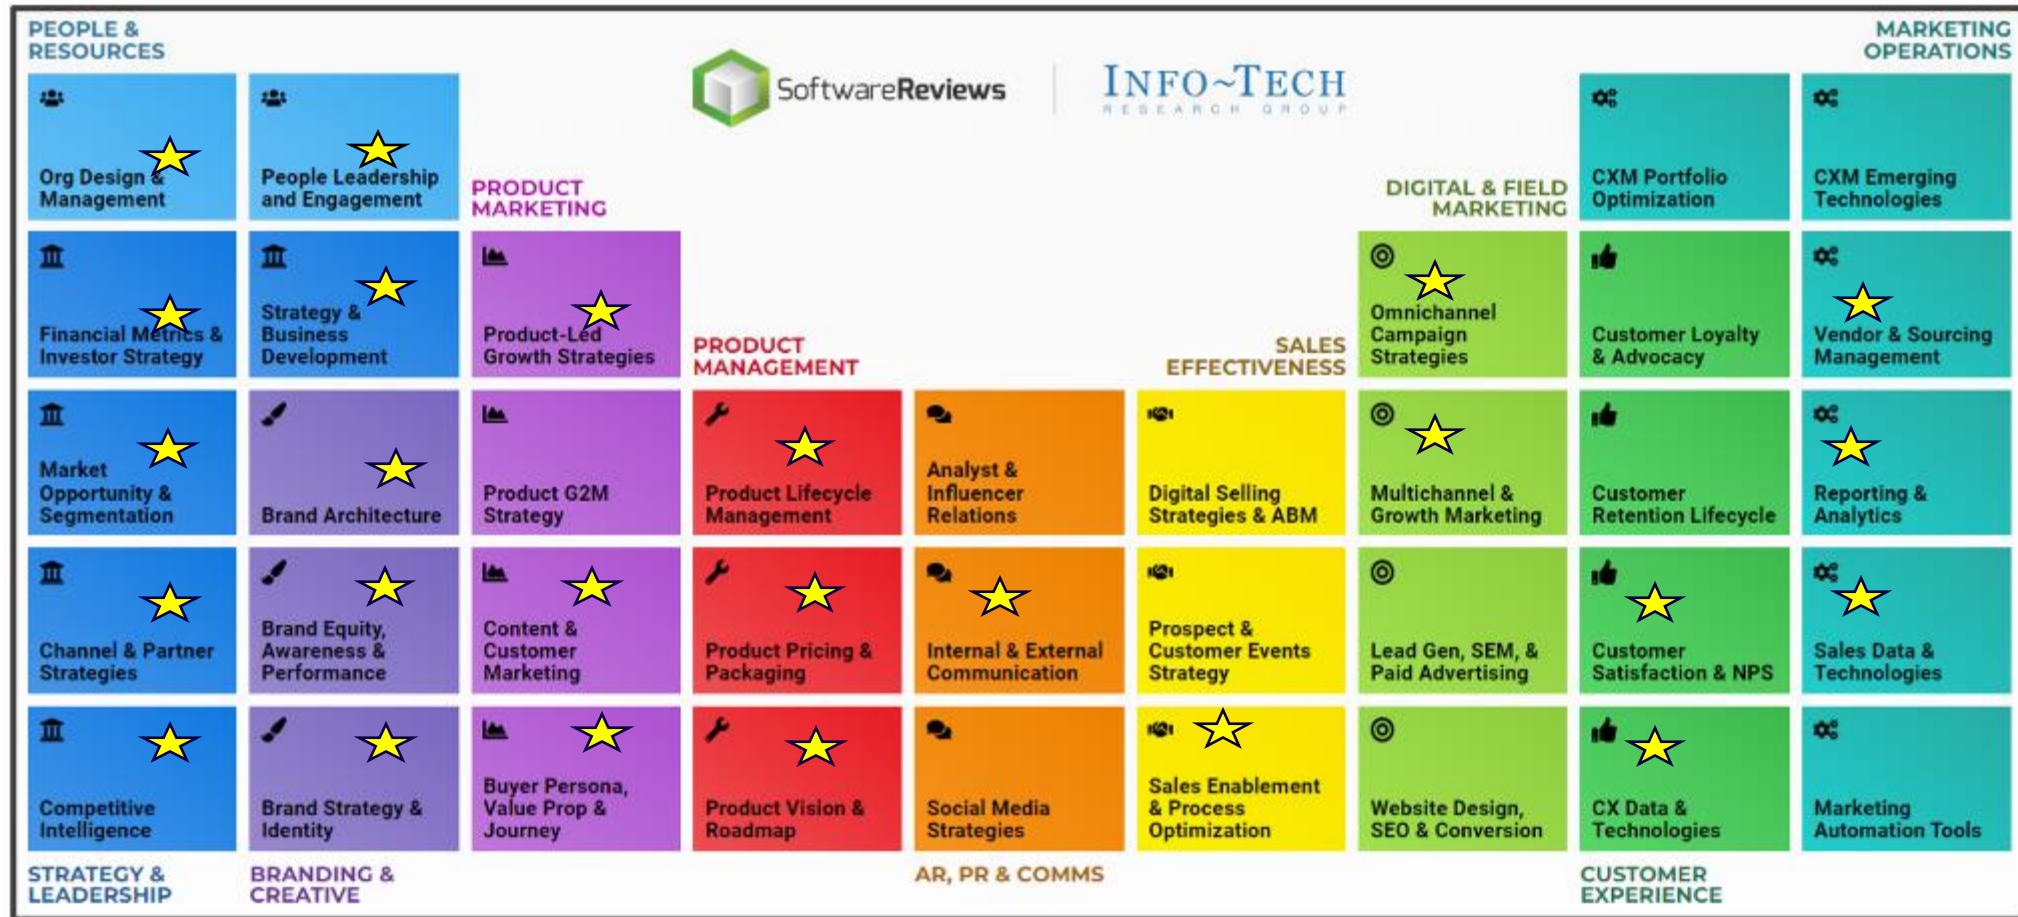

# Leverage best practice frameworks to support DMAP Accreditation

# Technology Marketing Management Framework

A complete set of integrated how-to research and tools to advance your marketing, product and business performance.

## PPM & PROJECTS

# Comprehensive & Connected Approach

## Example Journey: Data Strategy

### Ongoing service improvement

Ensure IT continuously delivers value

- Adopt a service management ongoing maturation approach, in parallel and ongoing
- Embed ongoing communication, governance, and adoption

### Apply Right-Sized Governance and Management

- Ensure your data governance program delivers measurable business value by aligning the associated initiatives with the business architecture

#### Info-Tech's Data Governance Framework

### Baseline Current State

Collect and benchmark

- Understand view of data
- Stakeholder feedback and maturity diagnostics
- Presentation-ready reports

### Align to Value

Increase business and customer satisfaction by delivering services focused on creating business value.

- Develop understanding of business
- Leverage reference architectures as starting point for value streams and business capabilities

### Develop Data Strategy

Focus on key value drivers for business

- Validate and optimize operations, touchpoints, and processes
- SOPs, process flows, and other best practice tools and templates

- Ongoing partnership
- Robust research coverage of high-impact areas
- Interconnected frameworks underpin research
- Practical and tactical research
- Actionable tools and advice
- Highly visual written and video content
- Designed to be easily consumed, customized, and shared
- Hundreds of road-tested tools and templates
- Right-sized approaches

# Phoenix Suns' IT group fosters community and innovation to optimize the fan experience

## Results

Established community to drive innovation in sports entertainment

Accelerated IT and business decision-making to improve fan experience and boost revenue

Evolved CIO role leveraging sound data and trusted research

*"From a personal growth standpoint, Info-Tech has given me so much more confidence. Being able to walk into a meeting with an answer that has been well-researched is incredibly empowering."*

# EXPONENTIAL

LEAN INTO THE CURVE

Info-Tech's strategic and actionable principles to enable IT leaders to extract the value from accelerating technology advancements

Lean Into the Curve by Applying Exponential IT Principles

1980 2000 2020

## PARADIGM SHIFTS IN THE ORGANIZATION

**COMPUTERIZATION**  
Organizations adopt PCs and networks at scale

**DIGITALIZATION**  
The internet allows ubiquitous connectivity

**AUTONOMIZATION**  
AI renders organizational capabilities autonomous

## PARADIGM SHIFTS IN THE ROLE OF IT

### TRUSTED OPERATOR

IT helps the organization automate the back office and create efficiencies

### ORGANIZATIONAL PARTNER

IT enables the transformation of business and service models and the creation of value through digital channels

### ORGANIZATIONAL LEADER

IT accelerates value creation by embracing exponential technologies

## STRATEGY, RISK & GOVERNANCE

CAPITALIZE ON THE COMMODITIZATION OF IT

**STOP BEING PULLED, START PUSHING**  
Co-own organizational outcomes

**OWN YOUR SEAT AT THE TABLE**  
Lead new technology governance

**DO MORE VALUABLE WORK**  
Transform Infrastructure and Applications into utilities

## FINANCIAL & VENDOR MANAGEMENT

SHIFT FROM TECHNOLOGY TO CAPABILITIES

**STOP EXPERIMENTING, START DELIVERING**  
Fund exponential value creation

**ADD CATS TO THE HERD**  
Boost vendor management practices

**DEMONSTRATE YOUR VALUE**  
Build outcome measurement

## SERVICE PLANNING & ARCHITECTURE

DELIVER ORGANIZATIONAL CAPABILITIES

**FASTEN YOUR SEATBELTS**  
Shift from service to outcome delivery

**STOP SILOED APPLICATIONS**  
Create integrated enterprise services

**GET INTO THE WEEDS**  
Architect business capabilities

## PEOPLE & LEADERSHIP

LEAD TRANSFORMATION TO A TECHNOLOGY-FIRST ENTERPRISE

**STOP EMPIRE-BUILDING**  
Embrace federated and hybrid operating models

**SHATTER THE ORG CHART**  
Reinvent the resource strategy

**TRAIN, INVEST, AND NURTURE**  
Let the workforce be with you

## SECURITY & PRIVACY

SHIFT FROM REACTIVE TO PREDICTIVE

**ASSUME THEY ARE MORE SOPHISTICATED THAN YOU**  
Defend against AI-enabled attacks

**GO BACK TO THE DRAWING BOARD**  
Mitigate rampant privacy risks

**OVERCOME YOUR HESITATION**  
Enable autonomous decision making

## APPLICATIONS

MOVE FROM APPLICATIONS TO ORGANIZATIONAL CAPABILITIES

**DELIVER CONTINUOUSLY (FINALLY)**  
Use AI and ML to drive automation

**BAN ONE-OFFS**  
Double down on platforms

**DON'T BE JUST A PARTNER**  
Create true co-owners

## DATA & ANALYTICS

MAKE DATA CAPABILITIES A DIFFERENTIATOR

**GO BEYOND ANALYTICS**  
Treat data as a product

**USE DATA AS THE LIFEBLOOD**  
Augment your data for more value

**DEFAULT TO AI**  
Team up DataOps with MLOps

## INFRASTRUCTURE & OPERATIONS

FOCUS ON VALUE OVER ASSETS

**GIVE UP CONTROL**  
Let AI take over core operations

**BECOME A BANKER**  
Implement FinOps

**LEAN INTO AUTONOMOUS PROVISIONING**  
Abstract away the underlying infrastructure

## PROJECT & PORTFOLIO MANAGEMENT

AUTOMATE & FOCUS ON HIGH-VALUE ACTIVITIES

**SOLVE PROBLEMS, NOT CALENDARS**  
Automate traditional PMO capabilities

**PLAN IN REAL TIME**  
Let AI run ongoing resource allocation

**TRUST, BUT VERIFY**  
Enable true accountability

# Key takeaways

---

1. You are not alone in the challenges you are facing
2. Leverage best practice frameworks and right-sized tools/templates to accelerate your strategies
3. Consider Exponential IT to enable leaders to extract the value from accelerating technology advancements
